

The NMTC Visionary Awards is a new forum to celebrate our neighbors and colleagues making a difference in STEM Education and to Technology Advancement in our community. Awards are given for:

- RISING STARS - people to watch.
- INNOVATORS – ideas that make a difference
- LEADERS- setting the pace for success
- MENTORS – role models for future generations
- VISIONARY OF THE YEAR AWARD – one who advances STEM Education and Technology to benefit the community, for a remarkable period of time

Join us on 15 February to recognize individuals contributing to our profitable future through STEM Education & Technology Advancement in the Northeastern MD region.

Our keynote speaker is Mr Simon Lee, President and CEO, STG Inc of Reston, VA. Mr Lee came here from Korea in 1979 looking for the American Dream, and working long days as a bookkeeper at first and later as a computer engineer, turned his dream into a reality applying vision to technology. His company is now a \$300 million privately held leading government contractor partnering with more than 50 federal agencies, and a strong presence at APG.

Key sponsors will be hosted in a private reception with Mr. Lee, and other distinguished attendees, prior to the banquet. See below for sponsorship details.

Tickets: \$55 for members and \$75 for non-members; includes dinner, cash bar, presentation and recognition ceremony. Tables of 8 may be purchased for \$400, members and \$550, non-members

These celebratory awards are vital to acknowledge extraordinary individual contributions and importantly, encourage our bright people to perpetuate sharing their knowledge and expertise to further our community's prosperity and growth.
